Small giant
VAMMAS B404 snow blower

VAMMAS B404

VAMMAS B404

Technical specification

Total length	3.46 m
Total width	3.46 m
Total height	2.41 m
Weight	8 t
Maximum capacity	3 000 t/h
Casting distance	15 - 45 m
Max height of snow bank	1.2 m
Impeller diameter	1.5 m
Auger diameter	1.1 m
Helical ribbon auger	Full width, hydraulic driven
Casting angle	160° (lh 30°, rh -10°)
Engine:	EU Stage IV / US Tier 4 Volvo TAD 137x, up to 405 kW
Voltage	24 V
Carrier recommendation:	Wheel loader 20 t weight class

VAMMAS is the leading brand of airport snow blowers in Northern Europe. The latest VAMMAS B404 snow blower has been designed to handle widely snow tasks at airports. VAMMAS B404 snow blower with full width auger guarantees a maximal snow blowing capacity. The unit has been designed both for dry and wet snow.

Performance has been engineered into the unit itself through: low design at front for improved visibility, powerful, hydraulic driven full width auger, open construction guarantee maximum blowing capacity of snow, optional chute for loading, separate and operator friendly control box, fast in mount and dismount to allow other usage of the carrier, open and easy access to all service points.
